### Technical Data Sheet (TDS)

#### Flexible packaging varnish for PP, HDPE, (Market bags) and Aluminum foil

##### Key features and benefits

- excellent adhesion and leveling on film substrates
- good gloss
- excellent transfer
- good water resistance
- good resolubility

Flexible packaging varnish is a film forming varnish developed for use in water-based flexographic and gravure inks used on Flexible packaging such as PP, HDPE market bags, and foil substrate. This balance makes it possible to achieve high quality on surface print jobs using water based ink formulations.

This varnish more advanced flexible varnish and strongly improves the mechanical properties of water-borne inks in general. It is also improves resistance against water, it leads to excellent adhesion on plastics and improves intercoat adhesion.
