### **Technical Data Sheet (TDS)**

Is a film forming varnish designed to provide excellent water and grease resistance on absorbing and non-absorbing substrates such as paper and corrugated cardboard.

#### **Varnish for frozen food storage**

##### **Key features and benefits**

- excellent water and grease resistance
- good film forming properties
- economical

Frozen food storage varnish is a film forming varnish developed for use in water-based flexographic and gravure inks used on packaging such as paper and paperboard and cardboard. This balance makes it possible to achieve high quality on surface print jobs using water based ink formulations. This strongly improves the mechanical properties of water-borne inks in general.
